

Career Interest Survey

Standard:

Students will identify an area of interest to explore for college/career.

Task:

Complete the career interest survey given to you in class (or access via google classroom) and identify 2 areas to explore. You will be required to reflect in 2-4 sentences on why one of the areas is more consistent with your interests than the other. Add up the scores from each subsection to identify correct areas to explore.

Rubric:

Criteria	2-excellent	1- satisfactory	0-unsatisfactory
Inventory is completed fully x2	Inventory is completed in full. Every question is answered honestly/ thoughtfully	Inventory is fully completed but not honest/ thoughtful. OR Inventory is NOT fully completed but honest/ thoughtful	Inventory is not completed. All questions were not answered honestly/ thoughtfully
Scores from each subsection are added accurately x1	All of the scores are added up accurately	Some of the scores are added up accurately	Few or none of the scores are added up
2 areas of exploration are identified x1	2 areas of exploration clearly identified	1 area of exploration clearly identified	0 areas of exploration not identified
