

Task 13: Auditory comprehension for vocabulary

Listen as the teacher reads the following statements. Fill in the box with a picture of the item, or a picture that represents what he/she said. Listen carefully and use the main word in the sentence to illustrate what was said. After he/she reads all the statements, be sure to label the items before you turn your scene in. Remember, this is not based on your drawing ability but how well you can interpret what you hear.
