

Hellenistic Cultural Diffusion E-Response

Content Standard

- Students will identify the significance of cultural diffusion during the Hellenistic Age.

Process Standard:

- Apply technology to assist in research and review
- Construct claims (of fact/value/cause and effect/problem or solution) on historical events and topics

Tasks:

- In pairs or small groups, students will view images and videos and read articles to gather evidence that Alexander's conquests resulted in cultural diffusion.
- As they use the following assets, students should document examples of cultural diffusion in a Google Doc that each group can post observations to
- These examples may include strategies used by Alexander to spread Greek culture in addition to examples of Greek culture penetrating other regions.

Hellenistic Rubric

Category	3	2	1	0
Response includes examples (observations) from image and/or video	Response includes 3 or more explicitly-stated, relevant observations of the text	Response includes 2 explicitly-stated, relevant observations of the text	Response includes 1 explicitly-stated, relevant observation of the text	Response does not include explicitly-stated, relevant observations of the text
Response supports the proposed claim by including inferences based on observations of the image and/or video	Response supports the assigned claim by including insightful, reasonable inferences made about the image or video based on three or more observations	Response supports the claim by including insightful, reasonable inferences made about the image or video based on two or more observations	Response supports the claim by including insightful, reasonable inferences made about the image or video based on one observation; or response includes only unreasonable or irrelevant inferences	Any observations made do not appear to support the claim
