

Part 2: Community Involvement

Due Date: TBD

For this project your fourth source will come from community involvement. Think of how you can help people affected by the topic you've chosen. Your community involvement may be completed through volunteering or conducting interviews, for example. Your community involvement should take at least two hours, this includes the planning and reflection process.

Once you have done your community involvement, you will write down what you heard/saw/learned and this will serve as another source to support your side of the argument.

Learning Targets:

W.9-10.7. Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

Process Skill:

The student communicated by expressing ideas clearly and effectively

The student was considerate of the people and environment with which they were working
